Personal Skills

Professional Skills

DETAILED WORK EXPERIENCE

WyGom (former Done Dezipn) · Most recent job title

Web Design & Development / Owner · May 2010 - present

Company Mission WyGom was formed around the idea that a company will be known based on the image they have on the internet. Because expectations rise every day, we proudly offer up what may one day be the world's most reliable web design and development service.

Responsibilities Working with the following technologies HTML, CSS, PHP + MySQL, JavaScript, Photoshop to provide consumers, corporations and institutions with a broad range of web related products and services.

Dead Sea / D7, Mkm Direct Ltd (Perdm)

Team Leader / Sales Agent · A total experience of over a year in sales

Company activity field Direct sales and marketing companies with operations in Ireland and UK

Responsibilities I had to sell products or services on events, B2C and B2B for clients like: DeadSea, Energia, Vodafone
When I was promoted to team leader I had to manage a team of ever-growing Sales Distributors

TechTeam Global (Stefanini IT Solutions)

Service Desk Analyst · May 2011 - August 2011

Company activity field Stefanini TechTeam subsidiary expands direct presence to 27 countries, broadens expertise across application outsourcing, software development, service desk, BPO

Responsibilities Help Desk & Desktop Support

Word Perfect Translations / Translations.ie

Interpreter (translator) · December 2010 - May 2011 · August 2011 – present (I still get calls but I reject most of them)

Company activity field Word Perfect Translations is a wholly Irish owned company of interpretation and translation services.

Responsibilities Translating from Romanian to English for hospitals, garda stations, etc.

Interactive Systems & Business Consulting

System Administrator · August 2008 - June 2010

Company activity field Leading capability provider of Communications & Information Systems for the Defence and Homeland Security Market.

Responsibilities IT Management, Computer maintenance, Help Desk & Desktop Support

Class-IT Outsourcing

Systems Administrator · June 2007 - August 2008

Company activity field A company offering complete integrated IT services and solutions. Starting 2004 the company's core activity naturally migrated towards the IT outsourcing services domain, exclusively dedicated to the Romanian market.

Responsibilities Computer maintenance, Help Desk & Desktop Support

- ✓ I have managed my own web design and development company

MINI INTERVIEW

1. Which was your biggest professional achievement?

As a professional, I want to concentrate my career in IT and be part of a global company that is an industrial leader and contribute to a growing organization.

2. Which was your biggest setback?

Having the knowledge and skills necessary and not being considered for a position due to the fact of not having a work permit. This was the reason why I opened my own web design and development company and I am really glad I made this decision. I am now available to work in Ireland as The Government decided on **17th July 2012** to cease restrictions on labour market access in respect of Romanians to the Irish labour market, **with immediate effect...**

3. Where do you see yourself 5 years from now?

Leading a professional team that wants to provide quality services and products to people, not simply clients...

4. What's your biggest dream?

My dream would be to see one day my ideas shape and change the world for the better of generations to come.

5. What job would best suit you?

A job that offers flexibility, perspective and helps me be creative. A job that would allow me to share my ideas and skills to the benefit of the organisation and the world.

6. Describe your ideal company?

The ideal company can be described by three words: trust, understanding and motivation

7. Which is the department you would like to work in?

A department is what I consider a team working together, so the only thing that can motivate constantly is working with people that you can describe them as "the best".

8. Give a detailed description of your personality.

I welcome new challenges and I like to think I'm not dreaming when I say about me that I'm a creative person and I enjoy new and unique things and situations.

My brain is always running for new and innovative ideas every day, ideas that one day can be put into practice and would help in making lives just a little bit better for everyone.

In my spare time I enjoy socialising with friends, play video, read, write, watch movies, listening to music and all the other fun stuff that a normal person would enjoy.

I would love one day to travel around the world, as I believe that the knowledge about other places and cultures is one of the most precious things you can ever gain.

And last but not least, I like life and I enjoy the small things we all experience every day 😊

Thank you for taking the time to read my concentrated life story and I hope you enjoyed it as much as I enjoyed writing and designing this CV. I welcome and value your feedback.
